My dear Mr. Dawson

Mamma meant to write & answer your kind letter herself last night; but she was so tired she put off doing so until this morning, & then not feeling well & being obliged to go down to the train to meet a friend, she asked me to answer for her & say that she would write soon herself. I think Mother is looking worn out, she has been anxious about Jessie & the little

stranger, has quite changed our
quiet household, fighting the
cook away for one thing!

Mamma told me to say that
it would give her very great
pleasure to accept your kind
invitation & accompany Papa
to Montreal, I know how pleased
she will be to see you again,
& remember well what a pleasant
resting place your happy home
was to me last year, so I can
describe to Mother how very happy
she will be with you.

My sister is so well, she has been
out for short walks several times,
& the baby is a sweet little boy,
with pretty blue eyes & as you may
fancy a great amusement & has

all.

I spent a very pleasant month
at Old Orchard Beach & have
come home so much better
than when I went away, that
I hope soon to walk about as
of old, I think I shall walk
very carefully all the rest of
my life, after such a warning.

The sea is so lovely at Old
Orchard, it comes rolling in, in
such splendid big waves & we
had glorious fun bathing in it.

I made some very pleasant
American friends, whom I
sincerely hope to meet again.

I hope Anna has come home
or I suppose I should say will

come home, for you are likely
still at Hamorasha, very strong
& well & like herself again.

William sent me such a nice
photo. of himself, w^h I have not
yet thanked him for, how much
you must have missed him this
summer.

Papa sends kindest regards to
Dr. Dawson & yourself & with
much love from Thamma
& myself to you & Anne.

Believe me

Yours affectionately
Samie Wilson.
