

Mrs. Wilson
Santo Feb. 19th
Acc. 976

My very dear friend

Junie has told you
how well & comfortably I got
home. the journey was a
very pleasant one. thanks to
Dr. Dawson's nice boat & the
beautiful supply of good
things. My week and
the pleasant memories of
a most pleasant visit
the day passed away much
more quickly than I could
have imagined. It was
able to have done. If some
every thing had gone on
in my absence just as

As I could have decided
But not so the condition of
my dear ones - the De has
been suffering a good deal
from Rheumatism in the
knee but the one he sprained
last summer but she well
one which seems to rebel
at doing the duty for both;
to add to this poor dear
Janie twisted her neck
awful and so I found a
pair of crutches to welcome
me home. very patient &
very cheerful under it all.
I trust soon to be able to
report that all is right again.
With the question of the

Lachy & the Dr. said I suffered
then going to her old home
to consult her old Medical
Woman about some incurable
Diseases I had the carriage
sent to my self. I am sure
your kind heart will rejoice
to know that a cup of
your nice tea did much
to comfort the poor weary
traveller, who had no such
thoughtful friend to provide
such comfort for her during
her long journey she was
going to the South.

Tell Anne with much
love from me. that I give

her little parcel & I'm glad
the doctors have been so gently
admiring you Julia has
had rather a hard time
of it and not a very good
recovery. But I trust now
that she is on the fair way
of soon being herself again
the baby boy is strong & healthy
with all the charms of the
first baby; where there are
my little ones about them
I have been nearly all the
time since my return with
my poor afflicted friend
Mrs G Brown. It is so very
sad being so far from
all her dear ones at such

A time of sorrow the letter
giving her particulars of
his death. I would not give
to her. This adds to her
distress. All indeed she does
know or that he is dead, or
rather that he has entered
with "the life for ever mine."
Was an her only friend here
who knew her lost brother
well & she long to see
her grief.

I was thinking of you all
on Friday evening I hope
you enjoyed the pictures
which I after think the
people the most impressive
part of the affair I see
that his Gallery has been

Very generous to the last
winter I trust his presence
will not stop there and
that he will remember
the College ^{of Berlin} as a graduate
I believe you that her
work of art is much admired
to her it is of price & value
dear girl I do so love her
& I do trust as soon as
her studies will permit
she will get to know us
all so much better when
I think people are always
best known by at their
own home.

I trust your little darling
boy continues well with

is making good progress in
the use of his feet. Dear
good little boy I do love
to recall all his pretty little
ways how nice to have dear
Ann's dear & that you
can see so much of the
sweet "Annai Boy".

I am much to try some
of my old out door work
by going to the Hospital
will you remember me on
the Wednesday my day for
going there. I have in case
I'm for being idle. feeling
so strong & well. My father
& time away. Tell the

of the good I have received
from my visit to you and
indeed it could not be
otherwise; Indeed I cannot
tell you my dear Mr. Dorr
how much good it has done
me. the remembrance of the visit
will ever be so pleasant to me.

Will you remember most gratefully
the dear Dr. Dorr - Thank him
for his many kindnesses & thoughtful
attentions. Indeed I could
fill my paper with grateful
thanks to all the members of
your dear household but
will close with much love to
all. Give sends a beautiful
memory to my dear Mrs.
I have am your attached friend
M. Wilson -
