ACC. NO. 1010

REF. 86

Montreal

Sep. 30th 1884.

Dearest Love,

At last the meeting
of the B. A. is over and
I think we may congrat-
ulate ourselves upon its
having been so successful.
The final speuchifying took
place at the Queen's Hall
this afternoon, but I did
not hear it as I was asked
to conduct a party of
geologists over the mountains

and did not like to refuse²

Yesterday I saw Lovell
and asked him about
Annie. He said that she
left several weeks ago
giving as her reason that
she was not well, but
thought that the real reason
was that she did not succeed
very well as a type setter.

I also went several
times to inquire from Dr
Howard about a nurse
but every time failed to
see him. This morning I
was just leaving the house
to go and see him again
when old Cady Jordan

5

met me at the door,
and I there & ~~ago~~ then
engaged her for the
first week in November.
She seemed well and
in good spirits and
I thought that all
things considered I
might just as well
engage her as go in
search of another.

I am not going to Phila-
delphia and shall en-
deavour to leave for Metis
on Friday evening. If, however,
I go to Sta. it will be im-
possible for me to go to Metis
before Monday. In either case
will telegraph.

Your loving Husband,
