

Chrysler Hotel  
Washington  
Apr 18/93

Dear Anna,

We arrived here this  
morning, and have been busy  
meeting up friends, and  
seeing sights to-day. We  
find the weather much the  
same and vegetation about  
as much advanced as at  
Shreve, because, though farther  
north, we are here nearly at  
sea level. Washington is truly  
a model city, in public buildings,  
streets, and parks. It has  
improved greatly since I saw  
it last. Great five-day market

We note all these  
arrangements about, William,  
College matters, houses, &c, but  
defer all thought till we  
can see you all. We shall  
probably leave for New York  
on Friday eve. or Saturday  
morning so that we may  
have Monday and part of  
Tuesday in N.Y., and be  
in Montreal if possible on  
Wednesday.

I shall telegraph & write  
of time of leaving N.Y. so that  
you may know when to expect  
us and I have asked Mrs.
