Dear drawing room
I am sorry it has
attraction of every-
body it looks
perfectly fearful

all over & pinned
it is to keep them
from falling
out at any time it
is not a letter
long I better
mean a letter
longer. Write

not written to you before
but I have been rather
lazy of late. The apples
are showering down
about half a dozen
or more in a day, and
they are most delicious,
I am sure the boys
would like to have
some. We had a delightful

journey up here and
a lovely time at Quebec.
The state rooms on
the Quebec were what
took my fancy they
were so neat and
clean. In the evening
there was some lovely
music they played very
well, there were seven
men altogether, the instru-
ments were that² they had
^{at 9nd} a violion, a base violion,
a cornet, a piano, a flute, and
a clarinet. Is Eva's cold
better now I hope it is.
The 4th form is very
large this year I think
there are twenty three
in our class.
