

Rideau Club,  
Ottawa.

June 13. 98.

My dear Anna,

I got back here  
today comfortably & on  
time, & tonight have had a  
talk with W. over the phone.  
He is coming to lunch with  
me tomorrow & intends, I  
believe, to leave with the family  
for Metis on Thursday.

The photographic competition  
has been somewhat interfered  
with by the loss of Ruth's camera,  
but I trust that she may yet

recover it. In any case, I think that a second event may now properly be added - i.e.

"Summer". Please see that the Competitors are supplied with sufficient ammunition for this further trial & let me know what it costs in order that I may pay for it.

I forgot to speak of the necessity of providing Follen with a suitable vehicle for his outings during the Summer at Metis. I promised to provide this & should like to know what you think about it & how it should be done. I have no

3

doubt that a suitable trap can be hired & sent  
down. This could be most easily arranged perhaps  
in Montreal, but I don't say that I could do it here  
nearly as well. I suppose that a low carriage of  
some kind would be best, but please let me know  
what you think should be done.

Yours

Seay.
