June 13<sup>th</sup> 1900

Dear Anna,

I am at the laboratory this evening as I have a young man copying out the inventory for me and requiring some attention.

The reception to the Library Association came off on Monday evening and was most successful. I was sorry Ruth could not go but nothing would have induced her to leave her lessons. She had her last examination to-day and is highly delighted at having them done. According

to her she has done very badly in arithmetic and algebra, but well in other things. Mr. Currie told Con. 15-day that one of Ruth's papers was perfect — also that one of them was so long that it took him from 5:30 to 8 <sup>a.m.</sup> ~~o'clock~~ to read it.

Con. is not very sure that he will get through but I hope that he may.

The librarians practically all left last evening and I am glad that they did, although there were many nice people among them. They were all highly delighted with Montreal and with their treatment here.

Last evening I dined with the Coxes - the anniversary of their wedding day. Miss Oakley was there, also Ridley Davis and his wife. The latter informed me that she had met me in London twelve or fourteen years ago.

I do not expect to get away from here before the 22<sup>d</sup> of June - possibly not then, although I am trying hard to get my work here finished. Ruth and Con. will probably wait for me. R. may go to Como for a day or two with her friend Lois Shepherd.

The A. A. examinations are going on and I was on

and this afternoon and  
got my first lot of papers.  
I must read them all be-  
fore leaving town.

By the way, I heard to-day  
that Ingres had decided  
to remain in Chicago and had  
written Peterson to that effect.  
Miss McLean is also leaving  
the Royal Victoria College,  
being dissatisfied with the  
pay and the work assigned  
to her.

I have thank Bernard  
and Poppie for their letters  
~~at~~ I shall try to write  
to B. soon. It is time to  
go home and I must post  
this on the way.

With love to all yourself  
included. Bernard
