Sole right of salmon and trout fishing in river Loen and Lake.

First rate beds. — Good cooking and attendance. — Moderate charges.

Aug 2<sup>nd</sup> 1909.

Dearest Mother,

Just a word to say that all goes well and that we are still in the land of the living. We have not heard a word from home since a letter written from Metis on July ~~2<sup>nd</sup>~~ 2<sup>nd</sup> which is just one month to-day. Wish there many returns for me this will be late but better late than never. We arrived here last night and to-day went to see a glacier which lies between two peaks of nearly 6000ft and is simply wonderful in fact beyond description. Some of the drives we have had along the valleys were so beautiful and grand and the huge snow capped peaks lost in the clouds are all so majestic + grand in fact one could not imagine that there was anything so wonderful to be seen unless they have seen them for themselves. So-morrow we see another glacier which is the finest in Norway this will make the third one we have seen. Well Mother don't mind the scribble but it is now after 12 P.M. Give my love to the bunch + remember me to Mrs. Coverhill if you see her + also Mrs. Blake. Must close now  
I remain ever  
Your affectionate Son  
Conrad.
