62 London Wall,  
London, E.C.

July 15th

1908

Dr. Frank D. Adams,

Faculty of Applied Sciences,

McGill University,

Montreal, C A N A D A.

Dear Doctor,

In reply to your favor of July 4th, I now enclose my cheque for £5. 5. 0. as my subscription to the memorial portrait of the late Dr. Harrington; I am very glad that you have succeeded in getting such an excellent portrait and I shall certainly be very pleased to receive a photographic copy of it when you are able to send it me.

Should you be in London again this summer I hope you will give me an opportunity to see you. I have just returned from a pleasant and very interesting trip to the Ural Mountains, Siberia, as I am now Engineer for a large English Mining Company beginning operations with sulphide copper ores in that part.

With very kindest regards,

I am,

Yours sincerely,

W. A. Carlyle
