

M. Gill College.

Thursday -

Dearest, it is the old story
of "so near & yet so far" &
I actually have to write
you a note when I had
thrown a marble down
into your laboratory
without much exertion.

I want you to come to
dinner tomorrow at 7 o'clock
Sophie will be here & Mrs
Fartin both of whom want
to see you. Papa will be
in Yareto & Maggie's best
clothes are packed up, so
the party will be quite
informal, & as the evening
will thus be devoted

to my friends & not to me
please be seere I come in
for one little minute
after your lecture, for
you know it-is quite a
long time since last
Tuesday -
your own
Anne

Dr. Harrington
