July? 1881

My dearest - I was truly
ashamed to hear from Mamma
that you could not read my
letters, but I don't altogether
wonder, for I know some of
them were shocking. The ink I
got from the hider was purple
& I foolishly poured it into my
bottle wh. had held black. &
by some chemical legerdemain
the two became almost invisible
& I have been very busy here
Eva has not been well wh.
besides depriving me of her as-
sistance, has given me some
muzzing to do in addition
to the baby -

Mamma has arranged
quite warm out - Fancy her &
domestics taking themselves off at 7
2-

I leaving her in an empty
house still she came to the
station - She brought some
beautiful roses -

But all my time has
gone & only that I do not
like you to miss a Sunday
greeting I will not send this
scrap - So many thanks for
the letters you send - I don't
find them wanting in any
good quality -

With all love

Yours
Luna

I hope you will get fat on
cream & strawberries, we haven't
had none as yet - The blanket
& things have arrived safely

Friday March
