

please bring all  
or something for  
Eric's camp - he  
really enjoys  
shooting in the  
morning. The  
discharge seems  
appreciated for the  
present. An

I wish you wd  
bring w/ you the  
little letters the  
children have thought  
of - you I wd like  
to keep them in  
your books.

Little Lutes  
Sept - 2 -

I have got your  
two letters, which were very  
welcome it - was so long since  
I had heard a word from  
you, though of course I quite  
understand how it was -  
still I missed the words of  
love from my dear old hus-  
band -

I thought that you had gone  
to Lake Memphremagog with  
the Am. Ass - you write as if it  
were new to you, it is one of the  
places I have often wished to  
visit, perhaps some day we  
shall. I don't remember any-  
thing at all about Dr Lamborn  
except his name, who or what  
is he? I sh<sup>d</sup> much like to know

I have just had a long letter  
from Rankine, dated Bombay.  
I must send it to mother & she  
might give it to you - to bring  
back to me - I do not wonder

that you have not-seen about  
a nurse, & indeed a few days  
one way or another wou-  
muck matter, I daresay, &  
in the meanwhile old Mrs G.  
may get my note & reply - she  
is so nice with the babies  
that my heart turns to her and  
think I will not get her - be-  
sure you ask Dr H. for a nurse  
pleasant with the household  
& cheer with babies - nothing  
any one c<sup>d</sup> do for me, w<sup>d</sup> com-  
pensate for a baby crying  
the way Eric did with Mrs  
Schultz - If you see Mr. Brown  
you might ask him about  
Mrs Innes - what pleasant  
face I always liked - but do  
whatever you find best, & assist.

I am very grieved to hear  
such poor accounts of Mary.  
At least, from Mrs M. you are  
sure to have heard the very  
worst - in its severest aspect.  
But for all that, I don't wonder  
you look darkly upon such  
symptoms, though I have never  
never been personally in contact  
with such. I think I inherit  
from mother a horror of all  
forms of lung trouble, though  
I have always tried to resist  
what often have proved unreasonable

not - but it to dwell upon such trifles, I can  
pass with a heart - I shall was I thence, the  
creatures alone, (my I call I have I saw) that  
have appeared upon our grounds, I would  
doubt of the garden have tried me out, I  
would, though I know very well the instability of  
things are in my eye, I only call out - by that the  
things, they trouble me more the less. The water  
from well well to long seems good, I I can't see  
to drink it - I wish I knew if it is really in  
what some - or not. But I would - I would about  
trifles. I have had a full day, Mrs. Savage, saw  
I paid me a long visit - this morning, not as a  
very oftentime thing, I in the afternoon the day  
will be called - I the day called, several times  
I finally I found out they belonged to my wife  
as I called upon his wife, I complimented - I was  
I would have that thing, I only had known how  
to love that girl - I wish I always was here to  
I seem to see her - they - I wish I could  
be removed with the - I the school
