Dearest - B -

The day has again come to evening & there is not much to tell you - I went for a charming drive up the Lachute road & then home by the beach ridge. The country here certainly is lovely - I also had the pleasure of going over a butter factory a charming place so clean & fresh & cool & such charming pans of cream & tanks of milk - most charming

to my inquisitive mind
I found nothing to
sketch on our long run
today, but shall search
for a place tomorrow

you have I think
taken our steamboat
tickets with you, you
offered them to me if
you remember I had
no pocket, I asked you
to keep them longer -
so I dare say you still
have them in your
pocket.

Miss Davis has commu-
ted to take charge of
Eric, so unless you
hear from me to the
contrary, he will leave
Lachute by the 11 of train
on Saturday, you will
know when it is due at

the Montreal and - however, I wish
have got some tobacco; I hope that
Richard does look like a "hot" boy
I got the parcel from early the day
day you left, & I have got all the
rolls & wads together, & I ordered them
to ship by the "Charlotte's" case, so I hope
they will be all right - I give you a
little breathing time to get started at
some.

Conrad seems to me to grow taller
day by day - though his number is
wearing off - Eric took the little you
off on a long branch through the
tunnels today - I was surprised when
I heard how far they had been

I hope that Kate has received I all
in good time for some east of sea
last year good. There were any
letters on it - once, I hope we do not
hear that Christina intended to come
to me, if not - I must do the best I
can. I have no doubt - give some
plenty waiting to keep good news
but - don't sit - up late hours - that
is all to begin so early in the summer
I am surprised to hear what Calou
is like -

Children all send love with

M. Anderson
