

try to buy it - I will buy hands
on it - at some future date
Pickens will likely have it in
his lending library -

also if you see Dr Hunt
please ask specially about
Mary & her present address
I cannot recall the one he
gave me, 108 or 9 Madison
something - I have had no
word from her, & feel deeply
her loneliness & possible suf-
ferings - I will write every
day if I knew where, & how
she is - I received the photos
safely - did you give papa one
& have you given or sent one
to the girls - I ought to write
to them in any case, & will as
soon as I know - I did write
a line to Miss Mc Donald -

My tea has arrived - with
a freight - of 66¢ on it - they
tell me it has gone received
by boat & rail, I know not
where - so with Astor's 10¢
tea has a duty of 76¢ on it, what
a detestable of somebody!

Eric wd like Longava, wh
is a brown book in the dining

room - wrote case, by Ballantyne, he has been
reading a great deal here & I am anxious
that he sh^d not degenerate into mere talk
because he is an excellent critic of the day.
He shows very little of the low level - particularly
back at Ballantyne by Ballantyne. we are going
upright - Capt. Cook and some in well with
his two books all the Pacific Pacific.
As to Maggicelli - his address is I think
in the absence of the evening seems tall under
the books - I feel these are my little things
out of my desk - it is either 108 & unknown
at 10, Deleille St. the latter of them is the best
out one - In the last case you might - never
care to talk & I think you are not being
too humble if you do get - Mrs. Remond
to have a woman - ... plate Maggicelli
make every thing straight - I could write to say
about - but would rather I had in thing - He is

in charge of our neighbors house and you
nd come here - I a story as this is a capital
Boston -

I feel absolutely that you are the other
members of the family - I am quite comfortable
with them I have been for years - working
pleas to tie me physically - I can walk &
carry things, more with the greatest pleasure
was it - not - for my city knee - I do feel
like a girl again - I that does not - because
on level ground - you can't think what
messy it - is not - I feel so comfortable with
health - I to be there enough to be able to go
about - without - a MR 29 - I do hope that you
will be able to come down soon - I you may
get Mrs Hamilton to give you a
room to agree with you so well - night - add
the house in and rather here you are now to have
with her perhaps has said - that - I you come on it you
