

The trees that I have  
planted are doing  
well I was quite  
surprised to see the  
grass when I  
arrived. The  
regiment has  
left well I  
think they  
will have a  
good march over

Monday evening

June 21<sup>st</sup>

No news of you to  
night - but St. L. & I. & P. being  
by the main lines delays are  
frequent. I sent yesterday's  
letter to town in case you  
had gone there as you pro-  
posed. I do not know  
what has become of Kate  
she is like a lamb among  
hungry wolves. Harriet  
has not yet got a maid  
& I believe she took Kate  
in last Friday because  
that Paul Ellen told her that  
Natalie was very mad that  
she should "sleep in her bed &  
look into all her drawers"  
which so offended Kate that  
she declined to sleep there any

know & now that mother has suggested her going to the College there will be another fight to pry. I hope you have been to town & will have settled the affair, for I don't want to send Kate home disgusted & out of humor with us all.

We have had very strong winds from north & east but no rain, so I had to get some water carted today. Also the winds tie me to the children all day as the baby can only go out part of the day & that in shelter, & consequently I have the two little ones on hand pretty well all the time. Ruth though good enough alone, is most jealous & cross to Cora - she cannot be trusted a moment alone with her. I do not know how to deal with her, she is a most singular child. The amiability seems to have been exhausted with Eric & Edith, both dead. Ruth are self seeking, nasty &

Anglicanized, by no means gentle I mean to the  
children - indeed they all seem to me to  
suffer from lack of time to attend  
many reason able measures, & lack of the  
worlds ideas with all the sewing & doing of  
the daily life - I wish the way of the others, & the  
to study, I stand in the way of the others, & the  
is good too I was little soul - I have few  
things more. Now myself - but than at - from  
no less - but perhaps after this things away with  
them - No more the children have been  
battered with diseases - especially they are  
as a lot of the sea side life - they are  
suffering very much - I consider much & long  
of spirit - but wants to both & better & side,  
No very thing like a boy - I am seeing  
of being the letters tomorrow - but I  
disappointed as to whether I will be able to  
them or not - I really just disagree to moving

all that seems needed - whether it is a lack  
in my system or no I cannot say but the re-  
sult is the same in either case - The result  
has to be no means pronounced but I think  
one will get a healthy looking but some may  
of course seem to be getting the worst of us  
before long - and I feel sure we shall have  
to get a no reaction as regards only a few  
I consent as best - much attending to pain  
to the long straight - has reference to  
then with rest & exercise - we have  
no immediate prospect of vegetable,  
or medicinal food for many years  
rather very improvement - is much better  
It seems to me that if we were running to  
continue our night & day - our business will  
of course will be what we want - we  
of course will be well - and then  
and then we shall be well - and then  
and then we shall be well - and then
