Little Notes

June 24/90

Dearest -

Thank you for
your letter, so glad to hear
that all has gone well
with Eric. I think we
have every reason to be satis-
fied with his standing -
War paper seems in the regular
harvests next - of warms, War
holiday still far off -

I have no doubt you
will plenty to do & will
continue to do so, if time
serves do look up both
Wolbers & McDonalds, they
have been so extremely good
to us, true friends &

in ward from Fausley

has as yet - except - the Temple
of stone here - I expect old

tomorrow I will get him
to put it up if possible
we are getting on very well
weather fine, the last two
days, & the children black as
I believe - I fear. I have come
off with inefficient clothing
for the summer - I have had
really thought - but it is
felt - able to - I have asked
Eric to leave a note for pattern
to be sent to me, & I must
try to get Miss Mearns to make
me a black - print - to send
with some one coming
down - papa is likely to be
the latest - If sent to him
I suppose it has to be sent
to a collector's care as the house
is shut up.

If Drysdale sends you
a bill for books - don't pay
if - he is a fraud, I asked
him to get me ^{the papers} The Cherry
Gears - & another book both
of wh - he acknowledged were
in cheap editions, & he has

forgot to see the great hole - we will
a regular selection of the best the
of all - a quarter of the best the
of another a cable selection of
Dorner with a hand - it is always
I have I told, their expense that they
were only useful to me of 1/2 - this
in a Hippel almost - here -
the nice unnecessary looks we had but
summer but had no time to look
for others - I hope Eric's progress will be
reliable looks - very stupid. You say
I have some of the materials of
all day I had to the possibility of being
used for a separate effort - it is very
unpleasant - a separate effort - it is very
to be on top of the same - makes the
nothing by the way - very good little
nothing by the way - very good little

but - whether with no apparent reason.

Monday - now -

Another fine day, take care of you -

all my darling, I could have to be as now

as you are - unless any of these other

others - there are in a walkable form. If the

dog. trip will be of any service to you - do not

hesitate to accept - but on my account what

is best for you is best for us all - Henry Thayer

will kill me first - now - but - it is different - I would

you - I hope no accident - I can find one except to

continue the blessing of our little darling -

in improve ment - I wish you not - make the

special in feel - that also the reunion -

patience - I know has you with her -
