

Monday <sup>Metis</sup>  
July 1911

Dearest - B - ,

Yesterday we had a cloudy morning & a wet afternoon, & today the clouds have again collected thickly & seem likely to cleave.

When I sent you a list the other day I did not remind you of the baby's hatlets which it is necessary to have - I would like a bag of that sort & a belladonna plaster for Keturah who still complains greatly of her back - some days she is really uncomfortable one can see, & other times I fancy it is habit & her general fetters.

Mrs Hague is going to have a 5<sup>th</sup> tier & they & Clarence talk of having a fine one for "Andrew" when he comes again.

I will try & write to Leonard soon - I have not much to say

energetic use of my spare time  
this-year, indeed I begin to think  
that very few people do much  
unless pushed & goaded by an  
urgent need - =

I received the sketches by  
Inc. Lead? - I have read one -  
a most unlike likeness of  
George has appeared in the Mail  
& was handed to me by no  
less a person than old Inc. Cras.

I have only time for a  
greeting as the washing has  
taken up all the spare time  
the post - is just-going out  
With love

Anne

Luis sends you a blue bell -  
for "ja-pa" - on further they go  
she cannot - has to part with it  
Bernard the less is distressed  
& promises to get one
