

Little helio

July 8<sup>th</sup>/93

Dearest -

Have received  
your letter & it is good  
to observe that you have  
got the library a little  
into shape, & that it looks  
easy - for even such a little  
corner in your undistur-  
bed possession, may be  
more comfortable than a  
wider space on the old  
padding - you certainly are  
living in rather a Bohemian  
way - & no doubt your  
friends think you deserving  
of sympathy, which indeed  
you are - I cannot under-  
take to advise as to peace  
but if you shd send me there  
is no music here.

I had Miss Fox look out  
a packet of scotch ale which  
she did but left it  
somewhere, not tied up  
or in a parcel. I where  
it - may be now who can  
tell?

Please have the carpenter  
make a shelf in the bathroom  
& a little place for soap  
very necessary, if the lining  
of the bath is not to be  
spilled - the easiest &  
probably cheapest plan  
for the children's clothes  
w<sup>d</sup> be to have a shelf -  
3 cornered - long - put up  
in their room with hooks  
depending - & I c<sup>d</sup> put a  
curtain in front when I  
g<sup>d</sup> back <sup>inward</sup>, in one of these  
two ways, that  
w<sup>d</sup> accommodate  
one child's clothes  
in any case  
& they might hang their  
best ones up in the attic

or some such please

Perhaps things will shape themselves  
before we are quickly than you now think  
The brothers each will shortly packed  
into the hay tonight - Was Rob's mother  
is too ill to come down has some weeks  
has been out - becoming better - she I see  
presently lying about on the boat - she  
he looks better like his old self tonight  
Another week here for a while probably  
I also hope he will have confidence &  
improve - little confidence she is weaker  
He has a little branched with his lungs  
I I wish I had some more for her  
I gave her the best one for the evening

also have showed her with sheet and  
I will get some potatoes -

All are well & send love to  
you has Janny is down - also has  
Rogers looking very well - I has the  
abscess well with little gravel & I  
hopeless. He like very on the is down  
with water -

Very truly

Anna

Wednesday
