

ACC 1010

Letter of recognition for B. J. W's work
for Sir L. D.

J. Harrington

Little Metis
July 193

Dear Dr Harrington,

My attention has been called in connection with my resignation of office to several oversights which I should endeavour to remedy. One is the lack of recognition of your services in looking up under great

difficulties and the
pressure of other work
the Department of Mining
Engineering in the Faculty
of Applied Science.
This I hope is now
in the way of being
permanently provided
for, and I feel
that it owes its
existence and prosperity
almost entirely to

Your voluntary exertions,
this should have
been suitably acknow-
ledged when you were
released from the work,
and I take blame
to myself for failing
to suggest this; but
the time was one
of great pressure and
anxiety and my
mind was wholly
occupied with the

Necessity of relieving you
from the work and
at the same time
providing for the chair.

This explanation
I think is right & place
in your hands in case
at any time it should
be of use.

Sincerely yours
J. M. Dawson
