Woods Hotel
Furnival Inn
Holborn

Rd Dr W. J. Harrington
~~Bank of Montreal~~
~~Abchurch Lane~~
~~London. England~~

IF NOT CLAIMED WITHIN FIVE DAYS
PLEASE RETURN TO
BANK OF MONTREAL LONDON.

is inclined to
risk the B.C. cholera
& has ordered me
to wash new things
well & to pick him
up & get him
ready. This is the
only time this
winter that I
have felt - he has
been ~~very~~ ~~very~~
sick to & I wish
I had been
dressed a ~~more~~
Baby looks quite
well & happy. The
Deng is no longer
as fast as it was
Dr. not come again
the ~~morning~~ ~~the~~
I recall the
Amara 194

seems quite recovered. It was
a very odd case quite un-
usual, as Dr. A.C.B. put it.
The child took ill so suddenly
remained so ill for 6 hours
then recovered, the next five
days the fever returned at
the same hours & lasted for
about the same time. Three
hours passed with no fever
& afterwards returned at the
afternoon hours, instead of the
morning. For two days & the
6 hours each time. With a
portion of the fever left - being
was congested - how the child

seems really himself again & the Dr is to see him again to-
morrow & sound the lung.
The telephone here is most use-
ful for Dr B - came each morn-
ing & telephoned each evening
to know if all was going
right - which was a comfort.
Of course we have to be care-
ful but I trust - all will now
be well. I find that contra-
ry to expectation I can get
winter Miss Leishman and Miss
Baker to go to the sea, & this cir-
cumstance of course lets me know
how little I can depend on
her, she was most devoted
cried over the baby & c^d not sleep
or sleep for sorrow, in his ac-
count - but she was quite un-
equal to any extra work, & I
had to send her out each day
for a walk, until today to keep

and fresh, needles, taking the music class &
helping & helping him at night - I enjoy when I
help to leave his wife when all afternoon he
worked his to sleep, poor girl - I'm so out
of all & in such, now she is washing my
risk needles & he has not heard from him
I receive the whole re - school me and
class another day, I am waiting to be
from you - Eric is back from N. Dakota &
works excellent but not attending much
improvement - He will not very little in the
way of paper - by Greg's accident -
I'm 15 days sleep is not being capable
as far as our head is like - I want to see
I wish I could - school is a good way
association I must appreciate - I long for
confidence - a sense of their part - and the
at night -
As to buying things - I hope you will
get some good cattle needles for yourself

those have been so common to see in the country
ones - your local shells get 5-20 each & shells
is very limited & if they are true I know
children - patterns they do as the more common
shell - rock & - the small boys - is as to my
glad of a shell - rock - either oyster, or
that's enough - oyster - but either a common
stone called oyster - he was with a soft down
about receiving shells - is a very common
as either a good shell wearing material
to be applied to a fine one - two pieces of
brass if they can be had for 1000
p. I don't think they would be too large - but
give you the measure from neck to chest
back - Cor - Ben - A sea as neck
back - Cor - as he has only one shell &
to pretty shells by pale - is - has an old & a
new 20 years of old sea water things - Cor
ones are 1/4 - 1/2 - the same - about - think

I need a dress. I have plenty
to go on with - & the fashions
change so rapidly - Certainly
English dresses have been very
satisfactory, but I do not think
you need bother about one -
I have no less than four
sfa cushions without covers of
either gauze or lace & get me a
piece or remnants of silk or
fine satin suitable for them
I wd be glad. I had not
thought of it before, I will
mention it to Eva - As a
matter of fact - anything to be
useful here, as most supplies
have run low - A case of scissors
I wd like, my case has gone to
pieces & one pair of the scissors is
not - so I can no longer keep
^{them} all to myself -

I saw old Mrs Keefath today
she looks much aged by her illness

Elleanor was anxious that you should
call on the Misses Redpath, who
are with their recent Mrs. MacLeod
at 81

Hyde Park. I

cannot remember where, but
I did not think you ⁱⁿ cars
for that, Royal Society next week.
Papa will go up, but not
mother - Harriet seems delighted
with Ottawa, "the situation &
air so superior to Montreal"
she has urged Eric to visit her
en route Westward, we shall
see - I have heard nothing of
Laura who has not even ac-
knowledged my remittances, or
apparently cashed her cheques
for the \$1000. as they still
seem to be in the bank to your
credit, or were lately - I saw
you the College ravens' book &
two photos of the group. We
went rain badly - especially
for the grass sown out in the

papers which will be given to some of the papers
I want was a little a hopeful view of green
we were coming up - I
the paper had I am not sure if it is
is a paper - is that not cheap? I do say
have been treated on in the paper in the
last six months -

I recall to see but what's objection
of his paper's work today, I see has a number
of things which he has done several
times; they are a mass of paper
some are in a group of papers & a
number - there is a number in which
always is also - but - and they think
is the most - I think of the two - I
reports the same as to some - but it
is usually done, I do not think
come under any business in another

goes & such teaching was her quite pay
 to make her father's father's school & with an
 amount of culture that seems quite low
 school children - obtaining. I wish we could
 get something like it - for our, who is also
 cheer and - her school - her's head; for with
 them toward - view - which he made saw &
 make up among the numbers & somehow
 before long, I must have abbey's my
 my residence & getting ready for such
 replace it - will be done somehow - but
 I am well - hand seeing & all the way
 proceed with that hand captured by
 with the French town

I have taken the occasion of this being but to
 speak to him of the to make and be in best that would be to
 him; he also speaks to his father in law, who says that he is
 very much pleased with his letter to enlarge his heart & says he is
 very glad to see a conviction that will give me more ground to
 making absolutely wrong with his language, but he does not
 exactly being that, etc. I have noticed make very lately, & still he
