mail day & I must end a
line, your letter for Ruth &
those stamps for Bernard &
pictures for Lai's have arrived
also the Art-Gallery book wh.
will give us all much pleasure.

Little Constance wants to
put in a letter for you before
she goes to bed.

Dear father,
I hope you
are happy in England, baby
can say "Ta-ta" & how-maw
& is happy. He is going out
with me for a walk today.
From
Constance

Baby seems quite well & jolly. Dr B - examined the thing today, & said it was still no more days before it was quite well, but he'd go and, & live as usual with care: so I hope that is settled over - Eric looks much the same - Dr B - wants to see what he catches up - but he has not been able to get away far that purpose - he still catches a great deal, & I am doing my best for him, with beaten up eggs early in the morning, & at night & so on - I think he has been steadily losing for the last 3 months & I only hope that we have not made an irreparable mistake, in not sending him away sooner - If Braconer does not decidedly advise not, he had better start with Gary

sometimes there things work wonderful but
I will be a with he has no strength
to come 200 m. he prices from 100000
at was to when he made in 100000
Historical witness to they 6 months in the
price - 1000000000 2 perhaps little there for
good about when it will be see he
does not say - I shall try to get the
Ditto - heard the 15-a though there seems
a good deal between this & that - the
Dennis' testimony is the remarkable way was
with value & Dennis would to go away
for all they cost - cost of course present
my own going for a walk with the
giving others - that - please really need in
which I refer to - who has subscribe 20
amount of money - I believe is Dennis' good - the other
see - I also agreed to have about a lot of money
this month - have had 150,000 of the salary of the

\$50.00 I sent - I am never revisiting you with
the \$50.00 but the coat left at a distance. I have
found several small ^{a couple} ^{last} ^{type} ^{of} ^{nothing} ⁱⁿ ^{the} ^{area}
unless for copying the ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
is made, I had the place ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
green coming up pretty well ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
had not yet a man into ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
The place 10 days after the grass was
over it was here ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
been back quite green ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
another I think returned to go to ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
this evening - The weather is beautiful
I the weather all working ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
as well - the big log - ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
a little log ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
concerned? I think the has been ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
with I calculate this ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
I thought of getting every ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
to replace ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
the whole I thought I had ^{of} ^{the} ^{area} ^{of} ^{the} ^{area}
