

June 16
~~July 28~~
1914

Dearest Bernard,

I am very sorry to have missed today's mail but - I really ~~do~~ not get a minute to write - Tomorrow Kate & Conrad go down to Antis & the others follow on Tuesday - morning I had intended them to go Monday but ~~could~~ not arrange with Miss Baker to be ready before Tuesday - On Wednesday I hope to be off myself - with Eric -

Kate came Monday as I think I told you - I have been the greatest comfort & I like Miss Baker as much as I can see I have seen so little - Thoreau is entirely faithful though not

clear, & altogether I think we
have great reason to be thank-
ful in these matters, both
Mother & Clarence intend to be
down before the end of the week
& these matters must run as
they come - I can still think
the best - preferable I wrote in
a most kind letter saying if
I wd change my mind I wd
take me out at a days notice
if I wd have done it - if I thought
it best, but Brauer is decided
as to the mountains - I hope
you will be home before
very long - Meanwhile I call
today, but it was not done
exactly as I wished still I
wanted to let your mind be
as easy as it cd be - The weather
here has been very hot & still
is, & Eric feels it much & has
no appetite - while the relatives

your reefs are - I either see or else think
if - certainly seems to increase - the greater
the reefs the better he seems - but it is most
difficult to see him in several of the reefs
had so little time to compare others
him? Long to reef myself & other cases, but
found to him more - he has got a couple
of photographs: materials - I have got
nothing things - I look different - a
hundred of black shoes - I have several
cases of the mountains and of foot, but I
don't - will be very but I cannot
if - perhaps like the sea - I have made
much of articles especially as to the
that promised to be suitable & have
my good rooms of - a place called Napier
Parker - J. L. Carroll - Elizabeth Lane & J. G.
is 1/2 miles from Elizabeth Lane, when about 1/2

topography and find the N. E. station is within
which I suppose there is several miles from
a 5 - from the Paris - Brown street -
by the latter for railway station, does not appear
I think the Administration as appearing & have taken
I think every step of the way has been made
he made clear before I had to take it. I do
earnestly hope that Eric's was sincere. I do
never know I shall feel when separated
any one to fall back upon = Papa & every
one here will want him - I if Eric's
inquiries - all well he well. He is quiet
interested & has been so good & pleasant
a practice but - so clear & confident of the
last few days evidently had his practice.
has prospects has taken him out. Obeying
house lately - which was a comfort - was not
by 5 days ago a warm heart. Was not

get much time for anything
but doing, just now, & will
be so thankful when the next
lot gets off - Dear little baby
is happier & sweeter than ever
but Eva begins to look pale
with the heat, as does Lois.
I hope you won't feel it un-
kind that we have urged
your staying on but it ~~was~~
impossible for you to help us
through these decisions, or the
haste & effort consequent upon
them - so it seemed wiser
to have all you had planned
but certainly if I have to stay
on at the Adir - or if it wd
seem well for you to be at
Inlet before July goes by, order
take my place - I let me go
down to the children - & if the
west is decided upon - you wd
perhaps be better than me -
George sent me a note a few days
since, to meet preliminary expenses

I have just that with Carpin
to my account - I have drawn
upon yr. bank account for all
hitherto needed - I will be all
before I have, to give you an
exact account of yr. bank
book - I have paid the
wages of Kate till end of July
Flarenc to end of June & Miss
Baker for first month from
June 15th to July 15th - I will
try & pay Paul, I have not
left any little bills I think, or
scarcely any - Coal has been
put in yesterday & I will
propose a sum of money to give
out - to the Whites household
in portions. I pay bills to Lopez
& Leudry - I am to get a
letter of credit for \$200 or there-
about; to Elizaluth town & take
a small sum with me:

I have not written to Lou-
ise all this trouble - but she
said she wd. I really time seem
wanting, & I have not courage

has every thing. I noticed I felt I could not
on at all - it seems no way as good as both I
write to me, I have kept - very good - and
people begin to talk of his health - has
been much - exercises as to what I am I am
I should like to see to say everything being that
they do. I do is now - has been -
I am not every what as to clothing - I will
bathed over water as if he had nothing else
As I saw some bread not to bother him as was
his time - was now I do not believe as was
him as if you write to him he will see
a real gratitude to him - for no reason
I am sure helped I thought - I am sure
I. I must be able say - I am sure
I believe must I should I know - I do not
but will - on his part - he was to say I will
the children for a while - so far has not
take care of himself - I am sure

Eliza, if you as I know to be in town for a
few days - if she can come see I do for
sincerely

Philadelphia June 16th 1794

Should have written to
in the camp & tried the
agreement as I had
my book - was looking
it - it is out of town
& I ordered David
to stop it & him.
