

Saranac Lake
Nov. 27th 1894

Dearest,

I received the pills
all right, & have taken several
with the usual good effect.
I hope the cold will soon be a
thing of the past. It is curious
that while we sit out, neither
the p.s., or I cough or burn to
any extent, but directly we
come in, & settle down in the
house the coughing begins, even
when the air is fresh or raw
it does not seem to disagree.
Dr. T. is still away, & Dr. Kane
& Dr. Walewein has two assis-
tants trot round more actively
than usual. Both of these men
came here as patients, they are
two others, patients, as well as
Dr. Knutson.

I have got Hal's likeness & it
is a comfort to have his sweet-
little face to look at it is quite a
new face to me, I truly wd not

have known him, he is entirely
different from the baby I left
but I don't like the photo, either
it sh^d have had a larger
face wh. wd have looked sweet
with his curls & features, or
his whole figure sh^d have
shamed. his feet especially
also the light & shade is badly
arranged. Still - in criticizing
I think of the picture rather
than man, for a beautiful
child's picture is such a treasure
& he really is so pretty - I can
see no likeness about his
face to any of the others, unless
perhaps the nose which is like
Edith's & Couraels', & Lois -

Today has been dull and
gusty snow-storms, but we
got out 10.30 till 12.30 - & I tell you
it really is pleasant to be part
of the weather instead of simply
looking at it - from within
yesterday, the sun came out
& shone for 3 or 4 hours & we
basked in it. Tonight the sun
is falling continuously & probably
sleeping will begin tomorrow

She has had her fees this week though for a
very long time back - but, I think, how all
alike - I am going to compare with what
but - the ~~reputation~~ & reputation very low, the
only way I can account - for it is the ~~secret~~
having been given up, I had also several
quint the ~~copy~~ one - as it - seemed to have no
effect but - perhaps that was as compared with
the ~~secret~~, I shall begin it - as an ~~example~~
on my own responsibility - I wish that the ~~Dr.~~
Mrs. like them been so ~~informed~~ by what we
say - but they know the ~~secret~~, & the ~~secret~~
as I said & both - if we no ~~secret~~, but
you may know the ~~action~~ to be ~~secret~~, but
I must - not - ~~informed~~ what - I say - I must say what
my impression is, for they may give ~~secret~~
but - I do not ~~secret~~ & attack every ~~secret~~
& them after that what you may see ~~secret~~
I had a ~~secret~~ letter from Mrs. M. - ~~secret~~,
I had seen as soon as I had ~~secret~~, also on her

Wm Carey - W - which scarcely meets our audience
And - you might say I was pleased to receive -
