256. University St

Dear Dr Harrington

I send you some Echeveria plant which you can plant out now and they will stand out all winter and wont take enny hurt. the flower is very rare and pertly and ^{very} showey

I also send you up 12 plant of the Datura which i think you can plant now by coving with small pot to cept the sun from them douring the day and koto should come i will have more if you wish for some

I remain your truly

J. Grimsdall

P.S. plant Datura 3 feet a part flower white color.
