to have a tea party, Mrs Braune
Mrs Malson, & Florence, but about
half past 5 - we had one of
those violent white squalls
which caused rivers of water
to flow across our faces, &
drop down from above, Mrs
one of attempt - to go out in it -
Mrs M. - sent out in case later
& Mrs Braune did not appear, so
we had our tea with 4 other
only guest. It was a little of a
pleas - but the evening was
pleasant as it was.

Today is delightful & cool, as
the setting feeling goes, & of the
beautiful white roses have
blossomed, & been picked with
short stalks, mother has had
two of them. Eve is in a
nearly prime this a. m. but

hope it will pass. Camel had
again arranged to take the
boys out fishing, but the
wind declined to be gentle
enough to allow of it.

I am hoping that you
will be across again next
week - Dr B's curley parrot
has reappeared, R. Fleet seems
to feel quite badly about go-
ing there, so please be as
grateful as may be.

I hope you will manage
to get Carpio's money affairs
straightened out, as I wd
much like to know if there
will be any money in hand
for this winter or not. Mr
Fleet said he wd prepare a
statement. I think the Com-
mission should not be allowed
to tell us here whether
Madame lets the rooms or no,
if not, of course she shd be
paid. but if she does a very
little shd suffice her. I hope
the water turned off here the
that also will be remaining on

I wd like to try Carpenter's Eye as well as Dr
if you are not - success for more - Did you
find my key - I seem to know no great taste
books, & Gen. has none, but it - there were
11 or 5 in my wardrobe several days, that I thought
had some steam, some small of several days,
they are also at - Harris's.

But Mr. - but - have been trying to write to
some upon that 'young of life' advice I think in
my room I wd like it - I must say I wd like
the best for some such the best in the world
and I fear they hear - I see as in some
in looking that itself to clear in the
matters - It may turn out - also right - but as
thanks to us - I wd like all wrong - but as
to blame half - ourselves - I wd like as well as
many are unhappy hours I hear myself -

answered if men knew a little better how to
deal with the girls they so really marry, I don't
suppose for: I as has the girl, I am sure they think
just they are now thought enough to be able to
choose for themselves in some measure, with
knowledge.

I've come prepared to rest - I was
I really have a good time, I've as far as possible
ready for the next - all's well - everyone seems
to be inclined to be attentive to what I say;
mother is a little less so for I see I've
be obliged to see this in - whenever she
comes - some has this in - whenever she
in time - but is very rich for good with
about - I've not much of it - if the work
quite you about - it - but - be alright
with it - consulting any one - but I don't
has some down today, but - well to a
I was 7-11 - some rest - to the best
