Dearest - B.

As to money, I have
paid the Mulman & the \$4.80
taxes, I have now \$10.00 for
water to pay - which will
leave me exactly \$12.00 - there
will be nearly two months
milk bill probably about \$20.00
the bill of the butcher's that I sent
you, whatever Turkey is owed
& a cream bill of about 3 or 4.
The servants are new since a
second month but that can
wait till we go home. By the
way Dr Kemp we have two
visits you settled with Carol
did you not - I intend to
bring some butter, & wish you
would ask Loring at the kitchen
what they are selling it at -
if reasonable I won't trouble
about other than table-butter.

I was surprised to hear
about - B. G. - & fear it will only

we are added fatigue & trouble
all goes on well here & I hope
much from keeping Bernard at-
home this winter. I trust we will
be able to fill up his mornings
usefully. Conrad troubles me
greatly, his attitude is not good
he goes keeps his own counsel
goes his own way as far as he goes
& is not open or candid with
me. I fear that he will have
trouble next-winter. He must be
kept strictly & obliged to come in
on time & so on. I cannot under-
stand the boys being as they are
I know I am a poor ruler, but I
thought I had been careful &
tried to train them, & Eric
& the 3 girls went on as we would
I am going to have a serious
talk with him this week &
will tell you if I can reach him
at all. I do try & get some
hold on his confidence, or some of
honour, the few days you have
him alone. We at the possible to
have dinner at 6⁰⁰. it is almost
impossible for a boy to do 2 hrs work
after a late dinner. If not -
give him his tea with the children
I can't see how to manage.
We might oblige him to be in by

a certain hour, but it will need a set of updatable
mentherment - reputation. received. It clear, at these
any heart - wisdom & think of their boys. Having to have
as to character = best one must - go on with progress &
coverage - we have not. Progress has been together &
feels we have but many things, 15 years old - 7 the time
is so short. Do let us try it the way that I see it -
what - see any one to understand - character.

Then Henry is willing to have the letter
will appear in that will be good to pass -

When I say I thought? as I mean. Eff. of the
changes - I will. I say to be so as coverage & message
but - one has to face the harder condition

Henry's
Quinn

I w^d like to know if I can
count on Kate coming to see
for a week or two - don't bother
about it, only if she speaks
of it.
