A. S. H. + Bernard Jr at Woodstock

Dear Sir -
Having been seen
yesterday we managed a
walk - today so far only
the gallery is available
A Dr Barker here who had
just passed out - back - is going
back to Boston today & I shall
be quite glad to talk
at every corner - he is full of
information & material to be
& apparently has described
medicine for electricity - A Mr
& Mrs Gates who are also here
are very pleasant & the lady
next to a Mrs or Miss Safford
is so spontaneously glib &
funny - she perfectly charms
Bernard. We brought her in a
big bunch of colored leaves
the other day & took another
up to Mrs Gates' room - Her
mind is now centered in
the County Fair which is to begin

to-day, & I suppose must be
seen to - he already knows
all the cases & signs & lives on
the Bellings farm

I enclose Mrs M.'s very
kind letter with special
attention to her kind words
you - I am sure dear you
try to be cheerful, & if I were
not so busy, I wd think
more of how patient you are
about many things

Miss Marriesson writes that
the 3rd is the latest date she
can stay, & I shall write to
Miss Baker & see if she will
come in afternoons for a
week or two till we see
what result - for I wd not
like the children to get all
out of order - as they so
quickly do, & there will be no
sessions at the Boreys before
15th - I sh^d think

I am sorry Cor - has a cold &
hope he is really clearing his

very stupid & being better - best I dare say
the legitimacy that was best of the country
fact has come to his eye; but I always think
mine is a more wonderful - good & clear story

The weather is quite wonderful, & has
been best we've met lately. I don't
go out here as no rain in here. in fact our
the roads are lovely, less - of course the
beauty of the country combined - no rain
only the details - some magnificent - and
trilliums. I wish comfortable that you,
I never know, I also I walk - it's a great
country, & the beauty path ahead, are
more wonderful than I meet in any
place - the hills are very very beautiful
