

295 University St -

Dec 31st / 1899

January 18th / 1900

My dearest - Bernard, ^{post mark}

You have been neglected these last two days, I don't know exactly how it is, but there does not seem to be any time, we are now struggling with the booklets which have arrived & I hope we shall get them all off in a day or two, & when another packet of letters has been attended to we shall be able to resume ordinary life. I am just received a letter from Clara also a cable "Sichel - Leconte" so she is on the way out, & you will surely be back in time to receive her - Jean Greenhalgh, Arthur Craze & the others are the party, so they will be quite independent on Bernard & also in N. Y. I hope you will not hurry

back ere this account but that
& Sir W. Wood - were here today
& both hoped that you had
slept by the way as much as
possible, & get some holiday
out of it - you have never once
mentioned your cough - I
can only judge by yr. letters
being cheerful that it is better
I do not hope so - we have had
bitter weather yesterday &
today, & the babies very "chillborn"
children complain greatly
of it. I don't mind much.
Bernard returned home on
Saturday & today he says he
prefers Harrington East to
295 University St, but he does
not intend to be a farmer
but a "man with a green
house" I think B's prospects
well thinking out - I cannot
understand Dr B's coming here
next he's been a whole year
at S. work to do up as he
cannot go back there in any
class suitable to age & rank
& I don't like to speak to Dr
B - not knowing what to say
and - We distinctly made the
arrangement till it was of you

remember, I don't know who of Virginia
was of that - it is to continue - The boy is thank
God what I was experienced, but to have
with other of Alabama work as before
wishes - I can't see no offering for him to
skate - The sleeping is now very slowly
adjusted to - Please give your
of this, the last week has 15. in March - 20
before August as much from this year's work
than of other the garden - I get to have
more & raising of country, our - It has come
down with a big appetite - but I don't
have long if you will - I see
letters. Did you see that - I see
I did see as that - I see
clearly last - I see
I have seen such feelings
I see will buy this week - I see
I have seen such feelings - I see
I see when I see you see

Edward, I make with Henry I was - as that was
a word when she suddenly believes in all
they have been made I will on seeing
as a piece of her leisure - they see myself
the Colley's give her, if I had I go to 8
certainly if they like, if I had I go to 8
in that - I will it - I would like to go
along - I would like to go on, but I do not
to hear our opinion of his own name I would
was she does want to a separate copy of some
part - I will think and of the book & when
has a girl is the library also - what do you
think of that - I

I intended to write you a nice little
not - all had - remembering things, like this, though
they have to be thought - of - I will do as much
and alone much! I will do as much
to write anything but - I will do as much
about how coming in this to me - I will do as much
the time I hope to succeed to you

I do earnestly hope dear
that you are feeling better -
Please take the utmost care
of your precious self if
possible lay up enough
reserve for a to take you
through the rest of the session
with some comfort -

It is too sad to have all
the young people - remember
us only as tired, cresty, ^{over}
tired old people - We do
love them a little cheer-
ful sympathy - & we have
no one in or out - & they be-
gin to think all for them
be looked for a while
I feel myself most unfit for
this - but with a few years
less as if possible by in better
more lovingly, more helpfully
& more ~~not~~ ^{not} ~~at~~ ^{at} - There is
nothing really worth while
that is not done in the
name - I wish I could
better - your old darling
don't wonder you feel
cast down & disappointed
but we may help each other

more & be more contented
& happy - The cases are
most-comfortable paper
with so little material
expenditure -

Lovely

Anna
