Bernard,

By the time this reaches you, I suppose Courser will have sailed & you will be all by your wild love & I am quite curious to hear what you are going to do with your self - you must enjoy being quite free from all necessity of planning.

Truth received your letter from Balhala & Eva the 13c - with the glorious high mountains. The hotels in need confirmed the impression I had that it was a panacea resort of tourists you will no doubt also see something of the simpler life of the people - It is curious how the world is now overrun by people full of curiosity as to foreign countries & peoples &

of the great - must be in the
and huge combinations of words
inade extent - for all sorts of
purposes - & organization must
reach a high stage to cope with
these enterprises. One wonders
how it - was possible for the
ancients to do anything with
their great - masses of men in
proper organization.

after some perfect sunny
days with just a fleecy
autumn in them, we are
again having East Wind cold
& foggy but hitherto without
rain but I fear it - is coming

B.S. was out - early this morning
at the Point - & came back
with rough water he had to
leave the boat at Ferriffs
when the shelter of the Point
failed them they could not make
way against the rising wind
He has been quite good about
being careful - in boating -
but he's never in time for any
meal. & drives Ruth & the cook
nearly frantic - he has broken his
watch, but I doubt it - being

any letter if he had it - I have said very little
about it as I will do - we only just had back up
he is that - virtually useless, but - practically the
rest of back of Douglas & day - well - is most - him
ial to the general complaint - well - being -

high energy - He is a recent - kind of in - master
little weakness, who likes to make every one happy
I can do so easily - He likes me very much
and a horse left - I believe has been down again
for a few days but - we only saw him once
Day before - reached an excellent dinner
last night - he usually is a man of noble
though so eccentric -
But he is quite better again I was very
pleased to get your letter - the fact taken here

some fine weather first - your best everything is

With love from your mother & best wishes
Chalk begins for the program & I have seen
facilities & chalked out - I do hope
I believe so - will be in spirit of many - also a horse
