The Mineralogical Museum

Montreal
(Canada)

via England

Paris 5 August

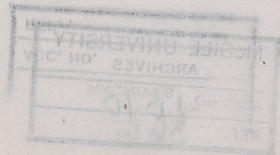

Respected Gentlemen

Our mutual friend Professor A. Brush in
New-Haven has kindly give your name
and name last month while my
having been in the United States

Allow me kindly to call your
attention for the price-lists and other
information you sent some days before
by bookpost.

I want to receive 12-20 specimens
of Dawsonite and 20-30 sps. of Uvare,
with from Canada, also Serranion,
1st from South Horn (East Canada)

A. Brush inform me that the
best way would be to write directly
to you I should extremely glad to
receive this minerals and perhaps
other rare Canadian minerals in

exchange for european minerals,
chemical compounds, crystal-models,
diamond models or for other things
you have interest for them.

My correspondents in London
are Miss Elkan. &c

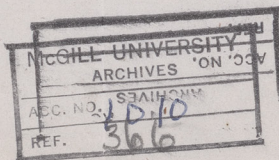

Waiting your kind answer
have the honour to remain
Dear Sir

Yours very obedient

A. Thomsen Lushardt

If you have no interest for chemical com-
pounds I beg your kindly would give
them to the Professor of Chemistry on
the Montreal-University whose name
I do not know.

Dr. Schuchardt
