

Recd. Jan 4/78

Frontenac Lead Mines  
Lenth Road

Feb. 1<sup>st</sup> 78

Dear Sir,

In reply to your favor dated Jan. 29<sup>th</sup> I beg to say I regret much that you should have had to write twice, but pressure of business alone prevented me from writing before

I gave Dr. Gray of the Paris Commission all the information you wanted and as I am told he is a member of the "Geological Survey" there will be no need for me to give them

over again as he can give  
you full particulars &c.

I am Dear Sir

Yours truly  
Julius Miles

B. J. Harrington Esq.  
Geological Survey of Canada  
Montreal.
