

1878

New Haven May 30

Prof. O. S. Allen

SHEFFIELD SCIENTIFIC SCHOOL OF YALE COLLEGE,

New Haven, Connecticut, May 30th 1878

Dear Harrington

Prof. Knobel will
be in town all through next month
except the 11th, & shall be here too
as late at least as the 25th.

I hope you will be able to come -
If your visit is put off till the
last of the month I will stay
till the last, as there nothing
special to call me away sooner.

If you arrange to be here
on a Saturday and are present
the day please let me know
before you come, as I often
go on some little excursions.

That day - all other days I am
here - We shall be very
glad to see you - Flower has
just this moment "discovered" in

He will be here next month
Prof. B. has found a lot of new
mineral species, will enjoy showing them

Your truly O. D. New Haven
