J. B. Burland

Re Phosphate Property

Montreal, 3 March 1881

D. D. J. Harrington

Professor McGill University  
City.

Dear Sir

I received your kind letter this morning and I am very much indebted to you for the information and kind advice it contained - I have been thinking of entering into negotiations with the owners of The Anthony Phosphate property -

As I am not personally acquainted with mining operations I am naturally anxious to learn something about the property in question and what might be the probable result of a trial -

My plan would be to work the mine for some time, before final purchase -

I regret very much to learn of your illness and trust you will soon recover complete health  
Thanking you once again for your trouble I am

Yours truly J. D. Burland M.C.S.
