Prof. B. J. Harrington
Dear Sir.

MCGILL UNIVERSITY ARCHIVES
ACC. NO. 1010
REF. 306

I have been for some years preparing a report on the lithology of North Carolina for the State Geological Survey, and I am exceedingly desirous to procure from you, if possible, a copy of your paper on the Chazy rock of Canada (published in the Canadian Naturalist) and also some specimens of the varieties of the rock itself. I shall be glad to reciprocate by furnishing you with a series of the druses of N. C., if you desire them.

Yours truly,
Alexis A. Julien
