Dear Dr. Harrington

I have just answered your inquiry regarding the situation of house at Prestons viz Lot 6 VII Range, Is very near the line between 5 & 6.

I packed up two Boxes from the Grant Pit for you. But as darkness came on before I finished, and as the boxes were moved before I got at them in the morning

it is possible that one of those intended for you will come here. viz that with the large weathered piece. If this should prove to be the case I will forward from herewith some other things you wished.

I hope you are none the worse of your really severe exertions, and that you found all well on arrival at home.

If you have the same weather we have at the moment. I think your boy will not require to search for "the divo".

Yours very sincerely
J. M. Miller
