

July 1/81

Prof. Egerton
New York

School of Mines, Columbia College,

CORNER 49TH STREET & 4TH AVENUE.

New York, July 1st 1881.

Prof. Harrington,

My dear Sir:—

I send you today as I promised the paper on Blomaries and on charcoal which I hope may interest you. Mr. Constable left here last evening for his home in northern New York. We have talked over our extremely pleasant visit to Montreal and we both hope that you will not fail to keep your almost promise to come on to the Harrisburg meeting of the Mining Engineers.

Yours Truly,
W. E. Gilman
