Knowlton P. Que.
June 27th '82

Dear Sir:

I sent you this
A.M. (express) a small box
of specimens. Those
from what is called
Brome Mountain I placed
in paper, those from
within a mile of Knowlton
are loose in the box,

Perhaps I did not get
enough from B. Mt. but
they all looked alike to
me. The Mountain seems to
be a number of hills. I
took these from the
South side. Eastward and

westward. Next
week I intend to go
to Shefford county and
will go to the Mountain
and get specimens.

If I should get more
please let me know.

Am sorry I was so late
in sending these and
trust it has not put
you back.

Yours very respectfully
L.M. England.
