Ward's Natural Science Establishment,
Rochester, New York.

Acc. 1010

Sept. 25/82.

Dear Sir,

The minerals which you were good enough to give Mr. Howell for me were unpacked last week. On Sat. we made you up a box and sent the same by American Express Co. You will find therein two distinct parcels separately labeled, one from Mr. H. for the Ward & Howell exchange - the other my personal affair. I trust the few things I send will please you but you are not to consider my exchange quite complete. I still have for you a specimen of Augite from Nordmark and one of Schorlomite, ~~at~~ neither of which however, I was able to find

at the time of sending the ex-
change owing to the disturbed
state of my personal effects as
you can infer from the enclosed
circular. When I get settled
again these will either be mailed
to your address or perhaps I may
get an opportunity this winter
to run up to Montreal, when
they will be delivered personally.

Truly Yours

J. W. Stabler.

Dr. Harrington.

*My connection as Mineralogist with Ward's Natural
Science Establishment will terminate with the present month.
After that date correspondents will please address me at the
State Normal School, Westfield, Mass.*

F. W. STAEBNER.

Rochester, N. Y., Sept. 5, 1882.
