Coal - P.E.I.

455-100

Summerside  
May 11<sup>th</sup> 1884

Dear Sir

A company was formed here some time ago styled the ~~Winnipeg~~ Coal Company for the purpose of boring for and working coal should any deposits be found in this province. and as it is understood that you have given it as your opinion that coal does exist here particularly at Winnipegack near the West Cape of the Island. I have been requested by the Co to respectfully ask you to be kind enough to give them your opinion as to the probable depth of the coal and any other information you will be pleased to give.

An answer from you at your earliest convenience would much oblige

Yours Respectfully

D. Rogers  
President
