My dear Harrington,

I have yours of
21st ult. The date you mention,
(Feb. 19th) will suit me.

As to a subject, I had thought
of "Reminiscences of the Late
Sir W. E. Logan". Good as your
book is, it does not exhaust
the subject and I thought of
saying something of Sir William's
methods of working, personal
anecdotes &c. &c. to fill up the horn.
If you had an hour to spare
I would read you what I write
before the time for delivering it,
and, as his biographer, you might
make some suggestions.

The subject of Hudson's Bay
is, I fear, a little threadbare
with me. I have told and
written in various forms about
all I know on the subject.
If, however, you do not think
the one I have mentioned very
suitable for the occasion
I would choose another if you
will notify me in time to
write on it. Should I not
hear from you however I
will go to work & hunt up
the materials for the one
on Logan - Yours sincerely

Robert Bell
