We have some 300 rare pieces of amber in which various ante-deluvian insects are imbedded, such as gnats, ants, mosquitoes, flies, etc., suitable for mineral cabinets and microscopical studies, the remainder of a fine collection. To close them out we will offer them at very low prices, from 50c. to \$3 each, and will be sent by mail on receipt of order. Cabinet specimens of all the above materials always on hand.
