Prof. J. B. Harrington,
McGill University,
Montreal, Canada.

My dear Sir:

Your esteemed favor of the 8th at hand. I regret extremely to hear of Sir William Dawson's illness.

I will hand your letter to Mr. Bishop, calling his attention to your request in regard to McGill University. The work will be limited to one hundred copies, and it is not for me to make any promises. But I fully realize that McGill is the greatest institution in Canada.

Yes, I know Dr. Dawson's paper in the Canadian Record of Science, Vol. II, p.364. I also know your paper in the Trans. of the Royal Society of Canada, Vol. VIII, 1890. I should appreciate a copy of this myself. Any information of only a few words that Sir William Dawson could give on the geology of the West Coast nephrite would be greatly appreciated and would be credited to him in the book.

Yours very truly,

George F. Kunz,
