

McGill College,

Montreal,

June 25/89

Dear George

Your letter arrived this morning and we are all very glad to hear of your safe arrival and welfare, and also your position as a student of the large

house, which I
have no doubt
will suit very well.
Some part of your
party will come
on Monday. I
scarcely knew what
part; for mamma
suspects that Eva
is getting sick and
may be unable to
go. If so Anna
William & Margaret

with Sr and I will
try to bring the balance
on Friday.

of the explorations
are but apparently un-
known, it would be
well to get a few
rough shelves knocked
up in one of the
back rooms
stairs for stores;
but you must judge
of this. We want
the people of the

house & give us all
they can in the
way of blankets
& dishes as we
do not wish to
take more than
we can help.

My plan is
of pupils & leave
for Murray Bay on
~~Friday~~ Thursday July
1st, and spend
two weeks there before
going to Quebec; but

2

a great deal depends
on Rankine & crew,
In any case you
can count on some
re-improvement by the
end of Tuesday -
I present to take poss-
ession of the house,
It has been raining
& cold since you
left, and looks
like more rain
& day. We all

send us kind
love; but as
we has time
I write a long
letter for this
mail.

I shall send
you some sweeties; but
after 1st July shall
have it regularly
sent to Murray Bay

Yours ever truly

W. M. Dawson
