

June 3/41

My dear George

I have your letter of May 14. There is no doubt Harmsen will make all right about your field & work. If it costs a little, you may consider it a good opportunity; but please if you have opportunity say that you wish to be useful as well as to learn. If you find it in any way bad or very costly, we can drop it.

I have not time today to look over your schemes for next season; but will do so and write by next

mail.

With the amount sent last you will now have about \$45-00 in the bank. This will leave you best part of the summer and I shall visit again probably in Sept.

I shall enclose a copy of the circular of the new Practical Science School. Perhaps you may be a prof in it some day.

I shall also send a few copies of text book to you away. ~~Send me your address if you know his address.~~ We want a paper of ~~inquiries~~ & will give him \$250.00 per year for ~~the~~

Please see kind respects & love from
