

20th July 1872

Genl. M. Dawson Esq:
20 Staley Street.
S.W.

Sir,

On the 17th inst. I had the pleasure of replying to your enquiry respecting a Deep Sea Thermometer for the Natural History Society of Montreal, stating that as Prof: Sturvington had not ordered it, and it appeared to be urgently required, should I forward one to you, or to any address with which you might favor me?

Fearing that the above matter may have escaped your notice & trusting you will excuse me reminding you of the circumstance.

I am, Sir,

Your obedient Serv^t

L. Casella. S. S. C.
