

MEMORANDUM.

FROM

PRIMROSE BROTHERS,

COMMISSION MERCHANTS,
PICTOU, NOVA SCOTIA,

24th Sept 1872

To G. M. Dawson Esq

Egerton House

New Glasgow

My dear Sir

I am in rec^d of yours of this date and now enclose a note, rec^d by today's mail, for you, from Montreal. We have nothing further from your father or Prentice or Mr. Kay. Our Superintendent at Rivisdale is to send me the limestone shortly, I heard from him about it today. Would you have the kindness to say to Fraser & Co. we have rec^d his letter of 23rd Inst and have asked J. M. Copeland to ascertain his whereabouts and send him \$40. as requested. Fraser says Mr. Webster told him he had found an exposure of

the Webster ore $\frac{1}{2}$ mile west of the
any yet seen - This is important,
and a streak of sunshine amid the
present clouds of trouble. Would it
not be well for you to have a look at
it and make such an opening on it
as you think desirable and if any
thing could be done in searching
for a continuation of the Blauehard
ore South ^{well} East of Hudson's area it
would be ^{well} worthy of attention as any
discovery there would help our position
with Prentice and his friends materially
(Entre nous) We are served with legal
process in a suit by J. M. Fraser de-
manding a reconveyance of the iron
ore on his property on the ground that
it was got from him by fraud
and misrepresentation. He is no
doubt advised by our N.Y. friends who
seem disposed to go any length.

This latter please consider strictly
private

Yours Truly
A. S. Minner
