The Geologist

Her. M. B. Commission

Sir,

Would you be good enough to forward me as soon as convenient, a detailed requisition for the requirements of your Department, with a view to making preparations for the coming season's work.

As you will be expected to perform the duties of Botanist as well as those of Geologist please include in your estimate anything you may require in the former Department and it is essential as far as possible the weights of the different articles required should be named with a view to determining the amount of transport required.

I would also suggest that no boxes

boxes of an unwieldy size should be employed
as everything ought to be adapted for pack
animals.

I have the honor to be

Sir

Your Obed^t Serv^t
