

McGill College,
Montreal.

May 8/73

Dear Sarge,

I enclose herein
the original of Dr Bigsby's
letter about the monument,
a copy of which I sent
in hope of catching you
at Collingwood.

I have not yet
had time to refer
to the book he mentions.
Perhaps you already know
what it says; but I
shall try to send you
a copy of its inscription.

You will observe he
says the monument
was of stone and $\frac{2}{3}$ ds
of a mile from the
true place on acc-
count as he suggests
of the set-up of
the ground.

The stone must
state to be there though
perhaps sunk into the
oil or overgrown

Ever your affectionate
father
W. D. Swann
