

Mellal
May 8/74

Dear George,

Your letter to
W. B. Brewster arrived
safely yesterday. I have
taken the letters of
Seymour's whose edi-
tion for the two
is \$28.50 for 500
and \$43 for 1000.

You have not
as yet sent any notes
on the number
of the Report required,
and unless I hear

From you before it is ready
for prep, I shall make
1000.

The prep have now
been twice read and
will be in paper for
use in a day or
two.

The cover will be
blue, but a deeper shade
than those used by the
Society, more like that
of the English Blue-books.

The drawings are
very beautiful, but

The size is about $\frac{1}{5}$ the
too large for the
page, and they
will have to be
reduced, which can
be done by the
Photop. proofs.

I have not put
in the marginal headings
but have instead in-
serted headings of
sections, which give
it a much better
appearance.

I have no orders as
to disposal of Repts,
and should like
to know how many
to send to Dufferin
& Ottawa, and
whether any should
be put on file
like the Survey Repts,
I sent to England
Mr. Swell will
attend to the forwarding
if I get
the order.

We are all well

Dear you often
think further
W.D. Cameron
