REF. 15

Apr. 18 75-
Dear Sir: your letter of
Apr. 7. recd. and am much
obliged for information con-
tained therein. I know of
no one in this or neighbor-
ing States who has made a
study of the grasshoppers but
as near as I can learn they
visited Western ~~Canada~~ Nebraska
from a few miles east of here to
the western limit ^{of} ~~of~~ Kansas
and western Missouri & western
Texas ^{in 1874}. Their eastern limit in Texas
is about on this longitude and they
go south to the Gulf and beyond "in
the language of one of my correspondents.
Probably you could elicit infor-
mation of some value from Thos. Bates,
Leithrop, Missouri. H. G. Detmers,
M. V. D. Bellejard, Pottawatomie
county, Kansas, and J. M. Grant,
Crowellton, Buffalo county,
Nebraska. Yours respectfully
G M Dodge

Glencoe, Dodge co. Nebraska U.S.
